the grid

WISGRID

Effective transition to
Energy Democracy

9 tools that facilitate the creation of
a healthy, open market for all energy
players

A grid of nine icons representing various energy and market concepts: a smart meter, a house, a car with a charging cable, a battery, a group of people, a puzzle piece, a wind turbine, a graph, and a solar panel.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the grant agreement No 731205.
