

**Taking the journey together –
Offshore & Nature**

19th October 2022 | Olivier Feix

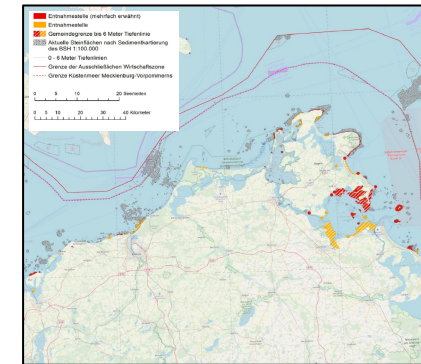

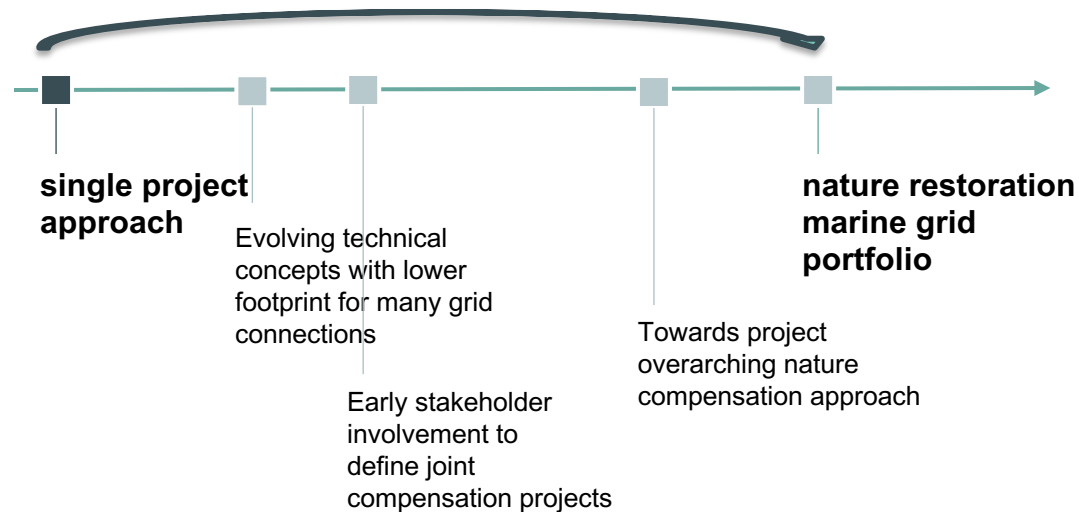

Our ambition: A meshed offshore network in the North and Baltic Seas to harvest full offshore potential and to support developments towards nature positivity

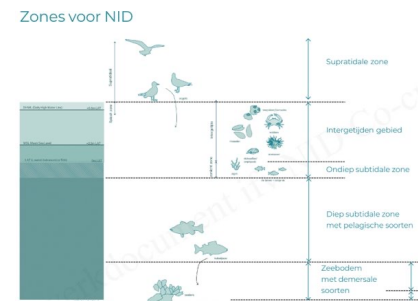

Offshore wind energy is a significant cornerstone for achieving the Green Deal targets (decarbonisation, energy affordability and sovereignty)

Nature Positivity in Offshore Wind and Grid Projects: From a single project approach to a marine grid and nature portfolio

Combine efforts of stakeholders to act long-term, combine whole sea basin, cooperate with environmental stakeholders and deploy concrete activities short-term.

Thank you!
