Forecast for the:

- next 4 weeks
- next 3 months

The screenshot displays the S2S4E Climate Services for Clean Energy interface. At the top, there are navigation tabs for ENERGY, HEALTH, and AGRICULTURE. A search bar is located below the tabs. The main content area features a map of Europe with color-coded regions (orange, teal, and grey) representing different forecast categories. A 'Time selector' is positioned above the map, showing a sequence of days (1-5) with the current day highlighted. To the right of the map, a 'WEEK 2' summary panel provides performance metrics for 'Wind Speed', including a 50% forecast above average and a 16% performance rate. The left sidebar contains sections for VARIABLES, SETTINGS, CUSTOMIZE, and HELP. At the bottom, a red banner highlights the 'DOWNLOAD PREDICTION' and 'DOWNLOAD REPORT' buttons, with a central text box stating 'Access to data, reports and advanced climate explanations' flanked by arrows.
